

# Child Seat Group Note

## Germany:

- All children younger than 12 years and smaller than 150 cm (4 ft 11 in) must use a booster seat or child-safety seat appropriate to their weight. The Department of Transport advises that children continue to use a seat when they are 12 years or older but smaller than 150 cm (4 ft 11 in)

## Austria:

- All children who are smaller than 150 cm (4 ft 11 in) and younger than 14 years old must use a booster or car seat appropriate to their weight. A child must be either 14 years old or 4'11" to ride without a booster seat.

<b>ECE group</b>	<b>Group name</b>	<b>Bodyweight</b>	<b>Age</b>
